SUMMARY

Software Engineer with 2+ years of experience in backend application development, REST API development, database-driven enterprise applications, and full software development lifecycle. Currently developing enterprise applications using Java, Spring Boot, Angular, PostgreSQL, and MySQL. Strong knowledge of Java, Spring Framework, Hibernate, Microservices, SQL, scalable backend architectures.

EXPERIENCE

*Web Element Limited Solutions, **Software Engineer***

Sep 2025 - Present

- Developing enterprise backend applications using Java, Spring Boot, Angular, PostgreSQL, and MySQL.
- Designed and developed scalable RESTful APIs following layered architecture, SOLID principles, and Spring Boot best practices.
- Implemented secure authentication, authorization, exception handling, request validation, and database integration using Spring Data JPA and Hibernate.
- Optimized SQL queries and backend services to improve application performance and scalability.
- Collaborated with product owners, QA engineers, and deployment teams throughout the Software Development Life Cycle (SDLC).
- Prosper Mobile Application:
 - Developed backend REST APIs for mobile applications using Java, Spring Boot, and PostgreSQL.
 - Implemented OTP-based Login, User Registration, Authentication, and user onboarding APIs.
 - Implemented Idempotency-Key support using HTTP request headers to prevent duplicate API requests and ensure reliable transaction processing.
 - Developed secure REST APIs following enterprise security and validation standards.
- Dupak ERP:
 - Developed backend modules for Inventory Management, Dispatch Management, and Quotation Master using Spring Boot and REST APIs.
 - Designed CRUD APIs, business validation, pagination, and database operations using Spring Data JPA.
 - Worked on inventory stock management, quotation workflows, dispatch processing, and master data management.

*Digi Interface Pvt. Ltd., **Software Developer***

Oct 2024 - Sep 2025

- Developed backend modules for E-commerce and Auction Management systems.
- Built REST APIs consumed by web and mobile applications.
- Integrated secure payment gateway for online transactions.
- Worked on Microservices architecture and database optimization.

*Bweb Technology, **Software Developer***

Mar 2023 - Oct 2024

- Developed Loan Management System and Sports Management applications.

- Designed backend APIs and optimized SQL queries for high-performance applications.
- Implemented business logic, debugging and production issue resolution.

*Goldenmace IT Solution, **Java Developer Intern***

Jul 2022 - Jan 2023

- Learned Java, Spring Boot, REST API development and relational databases.
- Developed backend modules following MVC architecture.

EDUCATION

Shailendra Education Society

*Bachelor of Science • **Information Technology***

LICENSES & CERTIFICATIONS

Java Programming for Complete Beginners

Udemy •

SKILLS

Java 8 • SQL • PHP • Spring Boot • Spring MVC • Hibernate • JPA • REST APIs • Microservices • Spring Security
